We believe in giving dogs the chance to be real dogs for the day with a true Australian Farm experience. Our 23 acre, fully enclosed Farm has 7 purpose built dog playgrounds.

Our brand new, purpose built sleeping headquarters allow for the dogs to rest in comfort. They are provided with bedding, blankets, fresh water and breakfast/dinner. The sleeping areas are big enough to house 3 large breed dogs comfortably.

Our indoor sleeping areas are made specifically for the dogs who like to rest, more than run! They have heating/cooling for round year comfortable and provide the dogs with a quiet place.

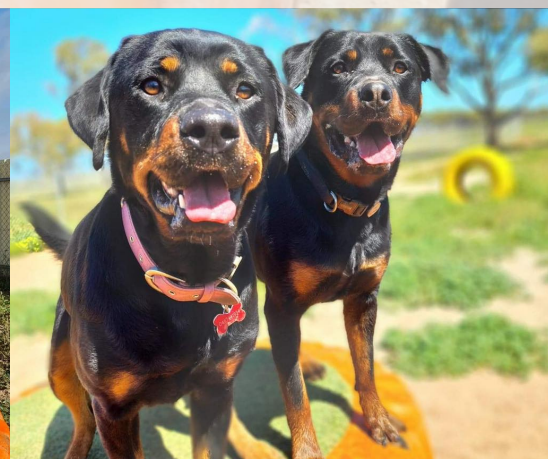

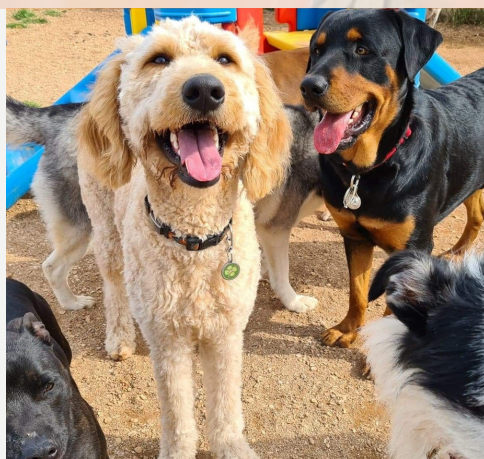

For stay and learn students and puppies, they are crated inside our family home in our designated crate area. They are provided with ample time out during the day and have fresh bedding and water provided daily.

REVIEWS OF *Take the Lead*

Victoria and Bella: I cannot recommend Take the Lead highly enough! I want you to be reassured that sending your pup here is the best choice. Our little Bella loves other people and dogs but if we are not present she becomes very submissive and scared. We weren't sure how she would cope being away with other dogs alone. We received lots of updates to keep us in the loop about her and Aimee went out of her way with the team to pair Bella up with a little friend, making her feel safe and comfortable before she re-entered the big pen. She is super confident and loving it now! Not only did they care for her so well... We had an emergency Monday, which is the day we were meant to pick Bella up. Instead of getting frustrated, the team were so helpful and they are still caring for her until all of this is sorted. On top of that, we are still receiving updates on her and messages checking in on us. This is truly a family business and the care is very genuine for both puppies and their human parents!

Aleriah and Lacey:

Honestly couldn't thank Aimee enough for all the work she has done for Lacey. I decided to send Lacey for a 2week stay of board and train. Improving some things I couldn't seem to solve or improve. I picked her up this morning as a completely different and improved dog. Being the first working dog as such I have owned. Aimee was always there before I had even booked a board and train helping me giving advice and being ever so lovely.

he support is incredible, I can't wait to see what the future brings. I'm sure Lacey can't wait to go back for some day training to keep up her social skills and see all the lovely faces.

Thanks again for spending the time with me to explain everything and the daily updates. Wouldn't go anywhere else for boarding, training or help. You're amazing x

REVIEWS OF *Take the Lead*

Mikayla and Bindi

We recently had our staffy X (Bindi) at a three week board and train for dog reactivity/aggression. Bindi had showed us some behaviours that we were unsure how to address including growling and snapping at new dogs and being incredibly reactive to other dogs whilst walking on the lead. We were also putting the feelers out to potentially getting a new companion for Bindi but were at a loss with how to do this when considering Bindi's issues. Bindi returned to us today with a rescue dog that Aimee has perfectly matched to her and us and we are absolutely thrilled with the progress she has made. Her overall obedience and concentration has improved massively and the way she is handling a new dog in her home environment has blown us away. We couldn't be more happy with how this whole experience has worked out. Upon returning home we took Bindi for a walk. She showed us just how relaxed and accepting she is and we are so grateful to the team at take the lead for making such a huge difference in her behaviour. We regularly received updates of her progress which kept us feeling involved and the hand over session at pick up has left us well and truly prepared to continue her training at home. Thank you all so much!
